| 5. The Neurologist cures the child-related problems. | Yes | No |

What Firefighters Do...

Read and

Write.

Firefighters are trained to control and put out fires. Firefighters must work quickly and as a team to keep fires from spreading. They connect hoses to fire hydrants and operate pumps to power the hoses to help control the fire. They may also need to rescue people who are trapped inside burning buildings.

1. What are firefighters trained for?

2. How should firefighters work?

3. Where do firefighters connect hoses?

4. What's another thing firefighters sometimes need to do?
