Lucy is in the classroom and reads about the Water Cycle.

There are four steps in the water cycle: Evaporation, Condensation, Precipitation and Collection. The sun evaporates water from the oceans. The water condenses and forms clouds.

Precipitation falls from the clouds in the form of rain or snow. The water from the rain or snow flows back to the ocean.

Example:

- 1.- Who reads about the water cycle?  a) Yes, she does
- 2.- How many steps are in the water cycle? b) Lucy
- 3.- What happens to the water when it condenses? c) Rain or snow
- 4.- What are the two forms of precipitation? d) Four steps
- 5.- Does Lucy read in the classroom? e) Forms clouds
