The Economics Museum Helps Plan Your Future
 By Melanie Holger

Last weekend, all the visitors at the Economics Museum were given a special gift. The director of the museum, Paul Williams, said: "We printed this brochure² to give recommendations on what to do and what not to do with our money. We shouldn't only show the history of economics." He also said that people make a

lot of financial mistakes that affect their future. The most common mistake mentioned in the brochure is not having emergency savings. If you want the brochure, you can go to the museum and get one for free.
