*With blue underline the things from now.

What was public transport like in Mexico City many years ago?

Over time, public transport has undergone various changes that have improved the lives of Mexicans. In Mexico, transport has gone through several stages. For example, in the past years, carts and carriages, which were made possible by the arrival of animals such as horses, mules and donkeys.

Nowadays, people travel by cars, buses, underground, motorcycles and bikes. Mobility has been a necessity in people lives, however, there were not always the means of transport that are available today.

Dear Mom and Dad, October, 1990
I finally arrived in London. The city is lovely but dusty. There are a lot of tall buildings where people live. We went to the city on a double-decker bus! The traffic was heavy. People here look very different. The men wear suits and look very formal. They look great!
Your son,
Guillermo

Hi Natalia, January, 2024
I'm finally in London again for the first time in over 30 years! A lot has changed since I visited my aunt and uncle in 1990. The city looks very clean. There are huge skyscrapers everywhere. There is now heavier traffic and there are still double-decker buses. Fashion has changed too; people are not as formal as they were. Hairstyles have changed the most! There are some modern styles and colors!
Best wishes,
Guillermo

Movies Then and Now

Look,

Read,

Write and

Draw.

Then

In the 1940s. There were many famous Mexican movie stars, including Cantinflas and Tin-Tan. Movies were in black and white. The most popular types of films were comedies and rumbera films.

Now

Write about movies in 2023.

Draw a picture of a movie you like.

Read,

Complete and

Say.

1980-2000

In the 1980s, less technology was available. There were computers, but they were slow and large. There were also things called cassette players, which were similar to MP3 players but played cassettes rather than computer files. It might sound strange, but most of the technology you use today was originated in the 80's.

2001-2023

Nowadays, there is a much greater variety of technology around. There are all kinds of phones, video game consoles, wireless ear pods and headsets! In the future there will be a greater variety of devices.

1. In 2001-2023 there are _____, _____ and _____.
2. In 1980-2000 there were _____ and _____.
3. Have you ever used wireless ear pods? _____.

Circle.

A comic strip is a narrative medium used to express ideas with images, often combined with text or other visual information.

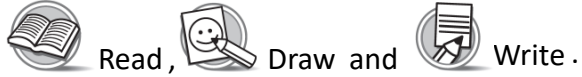

It typically takes the form of a sequence of panels of images. Textual devices such as speech balloons, captions, and onomatopoeia can indicate dialogue, narration, sound effects or other information.

Some comic book types are: superhero, humor, non-fiction, science-fiction and horror. They are typically printed in a newspaper or comic book.
