What Teachers Do...

A teacher is a person who helps others to acquire knowledge, competences and values.

They impart knowledge to their students to help them learn new things about a specific group of subjects. They find new ways of supporting their students' learning styles.

They also create educational material, such as posters, games, notes and tests.

The impact of a teacher goes beyond the classroom, influencing students' lives and contribute significantly to the growth and well-being of the community.

1. What do teachers help to acquire?

\_\_\_\_\_.
